Move object(s)	Click "Move"-button in the lower middle of the 3D view. A move icon will appear beneath the selected object. Click and drag an object to move. NOTE: Click more objects to move a group of objects. To deselect click one time on the floor or in the air.

PROJECTS

GENERAL USAGE

Function	Help
Start new project	In the top menu click the button to the left labelled "NEW". The system will ask you to confirm as you will loose any unsaved changes made to the current scene.
Open Project	On the welcome screen click the first button labelled "Open Project" or at any step click "OPEN" in the top menu. These two buttons are identical.
	When the LOAD window appears you must first choose a project. When doing so all the saved rooms/product lists for that specific project will be listed.
	Click to select and press "Load" button to load the project.
Save Project	Choose "SAVE" or "SAVE AS" from the top menu to save (overwrite) or save as (new).
	When the SAVE window appears you must choose a project prior to saving. If it is a new project, simply click "Add new".
	After doing so you will now be able to pick your newly created project from the list by clicking the empty field.
	Now name your room in the "Room:" field and click save. If you wish to overwrite and existing room, simply select it from the list and click the "Save" button.
Change project title	Click "Open" in the top menu. Now click the pencil icon next to a project in the list. This will bring up the Edit Project menu, where you can change the title. Click "Update" to save changes.
Check project status	In the upper right corner a short text will tell you if the current project is saved or not. Eg.: "Current project: not saved".
Activate quotation	Click the quotation button which is located in the lower right corner in steps 1 + 4.
Edit prices and names	In quoation press "E" on your keyboard, and you will be able to edit both names, description and prices for all items in the quotation. when you'r done press "E" again to exit edit mode. It is not possible to print the quutation while editing, To print exit edit mode by pressing "E" again.
Custom items in qoutation	When the quotation is shown click the "Add custom item", a new item is added to the quotation and you are able to enter name, amount and price. By pressing the buttom labelled "Add thumbnail" you can upload an image to your custom item, the size of the image must not exceed 2mb.
Take snapshots from the 3D view or product list.	In Product List click the "Snapshot"-button in the lower center of the view. In the 3D view the button will be located at the topright next to the camera controls.
